It braces the whole system, renews permanently the natural energies, by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation, which is the case of most medicines taken for female weakness and doeses. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

Great blessing to Mothers & Children. It is the sufest and must effectual medicine for puri-tying the system, and relieving the sufferings ettendant apon child-birth ever discovered. It strongtheus both the mother and child, prevents pain and disease, increases and enriches the food, those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Contiguence, Pine Crampe, Swelling of the childbirth—in Costiveuess, Piles Cramps, Swelling of the Feet, Despondency, Hearthurn, Vounting, Pain in the Buck and Loins, Fulse Pains, Hemorrhage, and in regu-lating the secretions and equalizing the circulation it has no equal. The great brauty of this medicine is, it is al-ways safe, and the most delicate use it most successfully,

Branty and Health.

Cosmetics, Chulk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin and check the circulation, which, when nature is not thwarted by disease or powder, or the skin halamed by the alkalies used in snaps, beautifies its own production in the human face Divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty, it is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of nature—not all ponder or soap. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paint, and use cosmetics, and the blood is thick, cold and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the checks, and a brilliancy to their eyes that is fascinating.
